

**IN THE UNITED STATES DISTRICT COURT  
NORTHERN DISTRICT OF ILLINOIS  
EASTERN DIVISION**

MERCIS B.V.,

Plaintiff,

Case No.: 1:22-cv-02747

v.

THE PARTNERSHIPS AND UNINCORPORATED  
ASSOCIATIONS IDENTIFIED ON SCHEDULE “A”,

Defendants.

**COMPLAINT**

Plaintiff, MERCIS B.V. (“MERCIS” or “Plaintiff”), by its undersigned counsel, hereby files this Complaint against the Partnerships and Unincorporated Associations identified on Schedule A attached hereto (collectively, “Defendants”), and for its Complaint hereby alleges as follows:

**JURISDICTION AND VENUE**

1. This Court has original subject matter jurisdiction over the claims in this action pursuant to the provisions of the Lanham Act, 15 U.S.C. § 1051 et seq., the Federal Copyright Act, 17 U.S.C. § 101, et seq., 28 U.S.C. § 1338(a)–(b) and 28 U.S.C. § 1331.

2. Venue is proper in this Court pursuant to 28 U.S.C. § 1391, and this Court may properly exercise personal jurisdiction over Defendants since each of the Defendants directly targets consumers in the United States, including Illinois, through at least the fully interactive commercial internet stores operating under the Defendant Internet Stores and/or the online marketplace accounts identified in Schedule A attached hereto (collectively, the “Defendant Internet Stores”). Specifically, Defendants are reaching out to do business with Illinois residents by operating one or more commercial, interactive Defendant Internet Stores through which Illinois

residents can purchase products bearing counterfeit versions of Plaintiff's trademarks and work. Each of the Defendants has targeted sales from Illinois residents by operating internet stores that offer shipping to the United States, including Illinois, accept payment in U.S. dollars and, on information and belief, has sold products bearing counterfeit versions of Plaintiff's federally registered trademarks and work to residents of Illinois. Each of the Defendants is committing tortious acts in Illinois, is engaging in interstate commerce, and has wrongfully caused Plaintiff substantial injury in the State of Illinois.

3. This Court has personal jurisdiction over each Defendant, in that each Defendant conducts significant business in Illinois and in this judicial district, and the acts and events giving rise to this lawsuit of which each Defendant stands accused were undertaken in Illinois and in this judicial district.

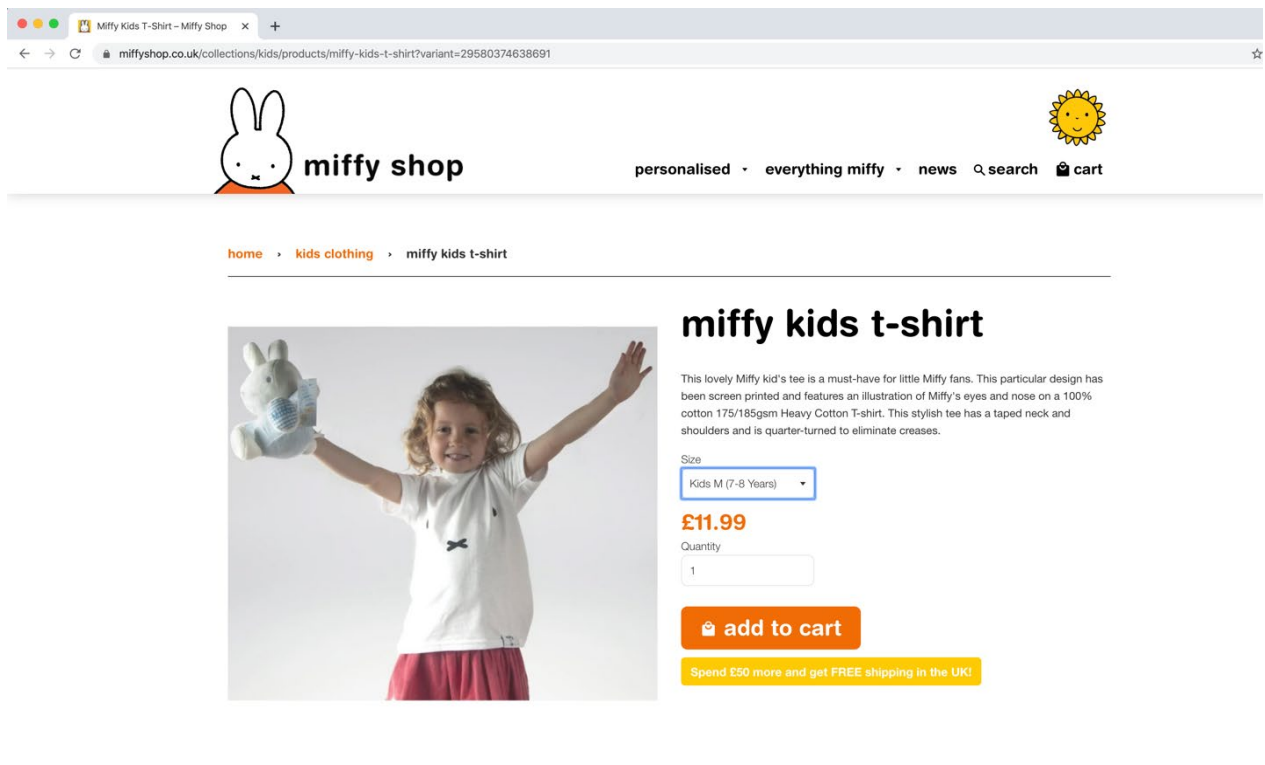

### INTRODUCTION

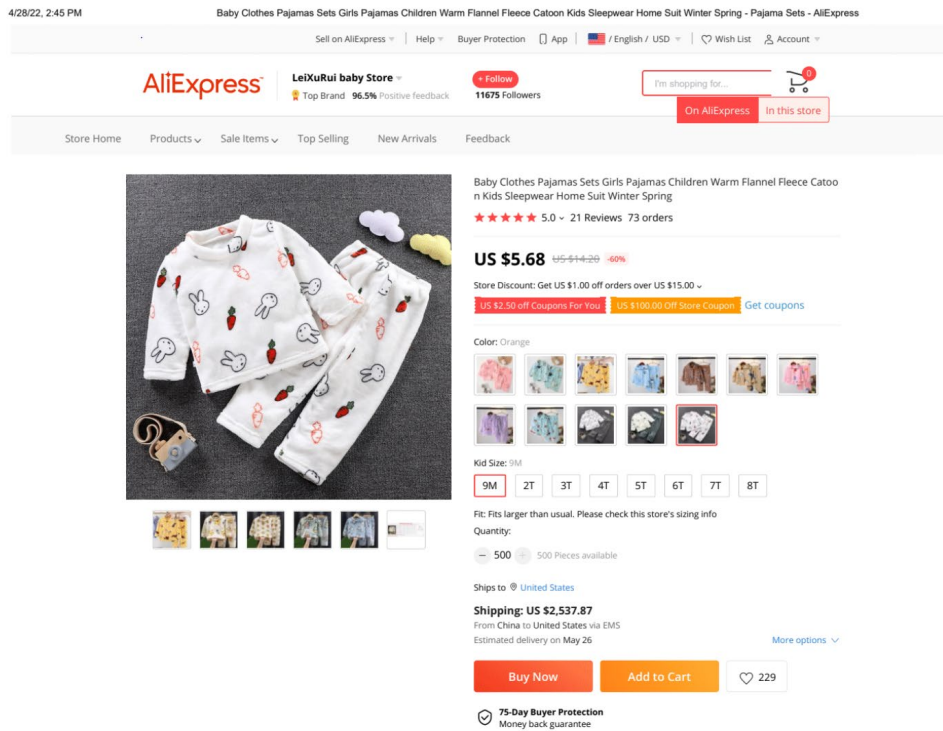

4. This action has been filed by MERCIS to combat online trademark and copyright infringers who trade upon Plaintiff's reputation and goodwill and valuable trademarks and copyright by selling and/or offering for sale products, hereinafter referred to as the "MIFFY Products" in connection with Plaintiff's federally registered MIFFY Trademarks, which are covered by U.S. Trademark Registration Nos. 2,210,029; 2,393,442; 2,482,597; 4,248,049; 5,516,174; 5,652,014; 5,663,554 and 5,663,610 (collectively the "MIFFY Trademarks"). The registrations are valid, subsisting, unrevoked, uncanceled, and incontestable pursuant to 15 U.S.C. § 1065. The registrations for the trademarks constitute prima facie evidence of validity and of Plaintiff's exclusive right to use the trademarks pursuant to 15 U.S.C. § 1057(b). Genuine and authentic copies of the U.S. federal trademark registration certificates for the MIFFY Trademarks are attached as **Exhibit 1**.

5. In addition, Defendants are selling unauthorized products that are based on and derived from the copyrighted subject matter created by MERCIS, hereinafter referred to as the “MIFFY Work.” Plaintiff is the owner of Copyright Registration No. VA 1-054-563 (the “MIFFY Work”) which has an effective registration date of November 30, 2000 and is attached hereto as **Exhibit 2**.

6. Online sales and licensing are the lifeblood of Plaintiff. The rise of online retailing, coupled with the ability of e-commerce sites to hide their identities, has made it nearly impossible for policing actions to be undertaken since availing itself of takedown procedures to remove infringing products would be an ineffective and endless game of whack-a-mole against the mass counterfeiting that is occurring over the internet. The aggregated effect of the mass counterfeiting that is taking place has overwhelmed Plaintiff and its ability to police its rights against the hundreds of anonymous defendants which are selling illegal counterfeits at prices below an original:

### ORIGINAL

COUNTERFEIT

7. The above example evidences a cooperative counterfeiting network using fake eCommerce store fronts designed to appear to be selling authorized products. To be able to offer the counterfeit products at a price substantially below the cost of an original, while still being able to turn a profit after absorbing the cost of manufacturing, advertising and shipping requires an economy of scale only achievable through a cooperative effort throughout the supply chain. As Homeland Security's recent report confirms, counterfeiters act in concert through coordinated supply chains and distribution networks to unfairly compete with legitimate brand owners while generating huge profits for the illegal counterfeiting network:

Historically, many counterfeits were distributed through swap meets and individual sellers located on street corners. **Today, counterfeits are being trafficked through vast e-commerce supply chains in concert with marketing, sales, and distribution networks.** The ability of e-commerce platforms to aggregate information and reduce transportation and search costs for consumers provides a big advantage over brick-and-mortar retailers. Because of this, sellers on digital

platforms have consumer visibility well beyond the seller's natural geographical sales area.

...

The impact of counterfeit and pirated goods is broader than just unfair competition. Law enforcement officials have uncovered intricate links between the sale of counterfeit goods and transnational organized crime. **A study by the Better Business Bureau notes that the financial operations supporting counterfeit goods typically require central coordination**, making these activities attractive for organized crime, with groups such as the Mafia and the Japanese Yakuza heavily involved. Criminal organizations use coerced and child labor to manufacture and sell counterfeit goods. In some cases, the proceeds from counterfeit sales may be supporting terrorism and dictatorships throughout the world.

...

Selling counterfeit and pirated goods through e-commerce is a highly profitable activity: production costs are low, millions of potential customers are available online, transactions are convenient, and listing on well-branded e-commerce platforms provides an air of legitimacy.

See Department of Homeland Security, *Combating Trafficking in Counterfeit and Pirated Goods*, Jan. 24, 2020, (<https://www.dhs.gov/publication/combating-trafficking-counterfeit-and-pirated-goods>), at 10, 19 (emphasis added) attached hereto as **Exhibit 3**.

8. The Defendant Internet Stores share unique identifiers, such as design elements and similarities of the unauthorized products offered for sale, establishing a logical relationship between them and suggesting that Defendants' illegal operations arise out of the same transaction, occurrence, or series of transactions or occurrences. Defendants use aliases to avoid liability by going to great lengths to conceal both their identities as well as the full scope and interworking of their illegal network. Despite deterrents such as takedowns and other measures, the use of aliases enables counterfeiters to stymie authorities:

The scale of counterfeit activity online is evidenced as well by the significant efforts e-commerce platforms themselves have had to undertake. A major e-commerce platform reports that its proactive efforts prevented over 1 million suspected bad actors from publishing a single product for sale through its platform and blocked over 3 billion suspected counterfeit listings from being published to their marketplace. Despite efforts such as these, private sector actions have not been sufficient to prevent the importation and sale of a wide variety and large volume of counterfeit and pirated goods to the American public.

...

A counterfeiter seeking to distribute fake products will typically set up one or more accounts on online third-party marketplaces. The ability to rapidly proliferate third-party online marketplaces greatly complicates enforcement efforts, especially for intellectual property rights holders. Rapid proliferation also allows counterfeiters to hop from one profile to the next even if the original site is taken down or blocked. On these sites, online counterfeiters can misrepresent products by posting pictures of authentic goods while simultaneously selling and shipping counterfeit versions.

...

Not only can counterfeiters set up their virtual storefronts quickly and easily, but they can also set up new virtual storefronts when their existing storefronts are shut down by either law enforcement or through voluntary initiatives set up by other stakeholders such as market platforms, advertisers, or payment processors.

9. eCommerce giant Alibaba has also made public its efforts to control counterfeiting on its platform. It formed a special task force that worked in conjunction with Chinese authorities for a boots-on the ground effort in China to stamp out counterfeiters. In describing the counterfeiting networks it uncovered, Alibaba expressed its frustration in dealing with “vendors, affiliated dealers and factories” that rely upon fictitious identities that enable counterfeiting rings to play whack-a-mole with authorities:

## Fighting China's counterfeits in the online era

Xinhua | Updated: 2017-09-19 14:20

BEIJING - A secret team in Chinese e-commerce giant Alibaba has the task of pretending to be online consumers who test-buy purchases from the billion-plus products on its platforms.

Alibaba's Anti-Counterfeiting Special Task Force, formed last year, actively works with local law enforcement agencies, said Qin Seng.

"After we clean up online shops selling counterfeits, the counterfeiters usually change their identities and places of dispatch, using more covert means to continue selling online," Qin said.

The team uses big data to identify counterfeits and the vendors, affiliated dealers and factories suspected of producing or selling counterfeit items. They pass evidence to the public security, administration of commerce and industry, quality inspection, food and drug supervision and other law enforcement agencies. At the same time, they investigate the evidence in the field.

The team faces many risks in their offline probes.

"Most counterfeiting dens are hidden and well-organized. For example, we encountered a village producing counterfeits. The villagers installed cameras everywhere and when they saw outsiders entering, they became vigilant and even threatened us," Qin said.

See Xinhua, *Fighting China's Counterfeits in the Online Era*, China Daily (Sept. 19, 2017), available at [www.chinadaily.com.cn/business/2017-09/19/content\\_32200290.htm](http://www.chinadaily.com.cn/business/2017-09/19/content_32200290.htm) (**Exhibit 4**).

10. Plaintiff has been and continues to be irreparably damaged through consumer confusion, dilution, loss of control over its reputation and good-will as well as the quality of goods bearing the MIFFY Trademarks and MIFFY Work. The rise of eCommerce as a method of supplying goods to the public exposes brand holders and creators that make significant investments in their products to significant harm from counterfeiters:

Counterfeiting is no longer confined to street-corners and flea markets. The problem has intensified to staggering levels, as shown by a recent Organisation for Economic Cooperation and Development (OECD) report, which details a 154 percent increase in counterfeits traded internationally — from \$200 billion in 2005 to \$509 billion in 2016. Similar information collected by the U.S. Department of Homeland Security (DHS) between 2000 and 2018 shows that seizures of infringing goods at U.S. borders have increased 10-fold, from 3,244 seizures per year to 33,810.

...

The rise in consumer use of third-party marketplaces significantly increases the risks and uncertainty for U.S. producers when creating new products. It is no longer enough for a small business to develop a product with significant local consumer demand and then use that revenue to grow the business regionally, nationally, and internationally with the brand protection efforts expanding in step. Instead, with the international scope of e-commerce platforms, once a small business exposes itself to the benefits of placing products online — which creates a geographic scope far greater than its more limited brand protection efforts can handle — it begins to face increased foreign infringement threat.

...

Moreover, as costs to enter the online market have come down, such market entry is happening earlier and earlier in the product cycle, further enhancing risk. If a new product is a success, counterfeiters will attempt, often immediately, to outcompete the original seller with lower-cost counterfeit and pirated versions while avoiding the initial investment into research and design.

...

Counterfeiters have taken full advantage of the aura of authenticity and trust that online platforms provide. While e-commerce has supported the launch of thousands of legitimate businesses, their models have also enabled counterfeiters to easily establish attractive “store-fronts” to compete with legitimate businesses.

*See Combating Trafficking in Counterfeit and Pirated Goods*, Jan. 24, 2020, (**Exhibit 3**) at 4, 8, 11.

11. Not only are the creators and brand holders harmed, the public is harmed as well:

The rapid growth of e-commerce has revolutionized the way goods are bought and sold, allowing for counterfeit and pirated goods to flood our borders and penetrate our communities and homes. Illicit goods trafficked to American consumers by e-commerce platforms and online third-party marketplaces threaten public health and safety, as well as national security. This illicit activity impacts American innovation and erodes the competitiveness of U.S. manufacturers and workers.

The President’s historic memorandum provides a much warranted and long overdue call to action in the U.S. Government’s fight against a massive form of illicit trade that is inflicting significant harm on American consumers and businesses. This illicit trade must be stopped in its tracks.

*Id.* at 3, 4. (Underlining in original).

12. Plaintiff’s investigation shows that the telltale signs of an illegal counterfeiting ring are present in the instant action. For example, Schedule A shows the use of store names by the

Defendant Internet Stores that employ no normal business nomenclature and, instead, have the appearance of being made up, or if a company that appears to be legitimate is used, online research shows that there is no known address for the company. Thus, the Defendant Internet Stores are using fake online storefronts designed to appear to be selling genuine Plaintiff products, while selling inferior imitations of Plaintiff's products. The Defendant Internet Stores also share unique identifiers, such as design elements and similarities of the counterfeit products offered for sale, establishing a logical relationship between them and suggesting that Defendants' illegal operations arise out of the same transaction, occurrence, or series of transactions or occurrences. Defendants attempt to avoid liability by going to great lengths to conceal both their identities and the full scope and interworking of their illegal counterfeiting operation. Plaintiff is forced to file this action to combat Defendants' counterfeiting of Plaintiff's registered trademarks, as well as to protect unknowing consumers from purchasing unauthorized MIFFY Products over the internet.

13. This Court has personal jurisdiction over each Defendant, in that each Defendant conducts significant business in Illinois and in this judicial district, and the acts and events giving rise to this lawsuit of which each Defendant stands accused were undertaken in Illinois and in this judicial district. In addition, each defendant has offered to sell and ship infringing products into this judicial district.

#### **THE PLAINTIFF**

14. MERCIS acts as the Sales, Marketing, Design, and Distribution arm of MIFFY products internationally and has a place of business at Johannes Vermeerplein 3, 1071 DV Amsterdam, Netherlands. MERCIS B.V. is a company organized and existing under the laws of the Netherlands.

15. MERCIS is in the business of developing, marketing, selling and distributing MIFFY products. MIFFY was "born" in 1955 and became Dick Bruna's best known and most popular character featuring in more than 123 books. In total they have sold over 85 million copies and led to four separate television series aired in more than 70 countries worldwide, a movie and a wide range of merchandising items such as clothes, toys, stationery and household items featuring the character.

16. MERCIS B.V. is the licensor of all MIFFY products and other collaborations, special events, retail and marketing endeavors. Key categories include infant and toddler toys, apparel, feeding, home products and fashion. For example, in 2020, to honor MIFFY's 65<sup>th</sup> anniversary, MIFFY has paired up with luxury accessories brand Strathberry and bag brand LeSportsac to create two purse and accessory lines:

17. The MIFFY Trademarks and Work have been used exclusively by MERCIS and its licensees, and have never been abandoned. The MIFFY registrations are valid, subsisting, in full force and effect. The registrations of the MIFFY Trademarks constitute *prima facie* evidence of their validity and of MERCIS' exclusive right to use the MIFFY Trademarks pursuant to 15 U.S.C. § 1057(b).

18. MERCIS has invested substantial time, money and effort in building up and developing consumer recognition, awareness, and goodwill in the MIFFY Products.

19. The success of the MIFFY Products is due in large part to MERCIS's marketing, promotional, and distribution efforts. These efforts include licensing and promotion through mercisdigitalcatalogue.com, retailer websites, and other internet-based advertising, print, and other efforts both in the United States and internationally.

20. MERCIS's success is also due to the use of high-quality materials and standards in making the MIFFY Products.

21. Additionally, MERCIS owes a substantial amount of the success of the MIFFY Products to its licensees, consumers, and interest that its consumers have generated.

22. As a result of MERCIS's efforts, the quality of its MIFFY Products, the promotional efforts for its products and designs, press and media coverage, and members of the public have become familiar with then MIFFY Products, MIFFY Work, and MIFFY Trademarks and associate them exclusively with MERCIS. MERCIS has acquired a valuable reputation and goodwill among the public as a result of such association.

23. MERCIS has made efforts to protect its interests in and to the MIFFY Work and MIFFY Trademarks. No one other than MERCIS and its licensees are authorized to manufacture, import, export, advertise, offer for sale, or sell any goods utilizing the MIFFY Work or MIFFY Trademarks without the express written permission of MERCIS.

#### **THE DEFENDANTS**

24. Defendants are individuals and business entities who, upon information and belief, reside in the People's Republic of China or other foreign jurisdictions. Defendants conduct business throughout the United States, including within Illinois and in this judicial district, through the

operation of the fully interactive commercial websites and online marketplaces operating under the Defendant Internet Stores. Each Defendant targets the United States, including Illinois, and has offered to sell and, on information and belief, has sold and continues to sell unauthorized MIFFY Products to consumers within the United States, including Illinois and in this judicial district.

### **THE DEFENDANTS' UNLAWFUL CONDUCT**

25. The success of the MIFFY Products has resulted in their counterfeiting and intentional copying. Defendants conduct their illegal operations through fully interactive commercial websites hosted on various e-commerce sites. Each Defendant targets consumers in the United States, including the State of Illinois, and has offered to sell and, on information and belief, has sold and continues to sell counterfeit products that violate Plaintiff's intellectual property rights ("Counterfeit Products") to consumers within the United States, including the State of Illinois.

26. The Defendant Internet Stores intentionally conceal their identities and the full scope of their counterfeiting operations in an effort to deter Plaintiff from learning Defendants' true identities and the exact interworking of Defendants' illegal counterfeiting operations. Through their operation of the Infringing Internet Stores, Defendants are directly and personally contributing to, inducing and engaging in the sale of Counterfeit Products as alleged, often times as partners, co-conspirators and/or suppliers. Upon information and belief, Defendants are an interrelated group of counterfeiters working in active concert to knowingly and willfully manufacture, import, distribute, offer for sale, and sell Counterfeit Products.

27. Upon information and belief, at all times relevant hereto, the Defendants in this action have had full knowledge of Plaintiff's ownership of the MIFFY Trademarks and Work, including its exclusive right to use and license such intellectual property and the goodwill associated therewith.

28. Defendants often go to great lengths to conceal their identities by often using multiple fictitious names and addresses to register and operate their massive network of Defendant Internet Stores. Upon information and belief, Defendants regularly create new websites and online marketplace accounts on various platforms using the identities listed in Schedule A to the Complaint, as well as other unknown fictitious names and addresses. Such Defendant Internet Store registration patterns are one of many common tactics used by the Defendants to conceal their identities, the full scope and interworking of their massive counterfeiting operation, and to avoid being shut down.

29. The counterfeit MIFFY products for sale in the Defendant Internet Stores bear similarities and indicia of being related to one another, suggesting that the counterfeit MIFFY products were manufactured by and come from a common source and that, upon information and belief, Defendants are interrelated. The Defendant Internet Stores also include other notable common features, including use of the same internet store registration patterns, unique shopping cart platforms, accepted payment methods, check-out methods, meta data, illegitimate SEO tactics, HTML user-defined variables, domain redirection, lack of contact information, identically or similarly priced items and volume sales discounts, similar hosting services, similar name servers, and the use of the same text and images.

30. In addition to operating under multiple fictitious names, Defendants in this case and defendants in other similar cases against online counterfeiters use a variety of other common tactics to evade enforcement efforts. For example, counterfeiters like Defendants will often register new online marketplace accounts under new aliases once they receive notice of a lawsuit. Counterfeiters also often move website hosting to rogue servers located outside the United States once notice of a lawsuit is received. Rogue servers are notorious for ignoring takedown demands sent by brand

owners. Counterfeiters also typically ship products in small quantities via international mail to minimize detection by U.S. Customs and Border Protection. A 2020 U.S. Customs and Border Protection report on seizure statistics indicated that e-commerce sales have contributed to large volumes of low-value packages imported into the United States. U.S. Customs and Border Protection, *Intellectual Property Right Seizure Statistics, FY 2020* ([https://www.cbp.gov/sites/default/files/assets/documents/2021-Sep/101808%20FY%202020%20IPR%20Seizure%20Statistic%20Book%2017%20Final%20spread%20ALT%20TEXT\\_FINAL%20%28508%29%20REVISED.pdf](https://www.cbp.gov/sites/default/files/assets/documents/2021-Sep/101808%20FY%202020%20IPR%20Seizure%20Statistic%20Book%2017%20Final%20spread%20ALT%20TEXT_FINAL%20%28508%29%20REVISED.pdf)), at 15 attached hereto as **Exhibit 5**. In FY 2020, there were 184 million express mail shipments and 356 million international mail shipments. Over 90 percent of all intellectual property seizures occur in the international mail and express environments. *Id.* The ongoing e-commerce revolution drove a 28 percent increase in low-value shipments and 219 percent increase in air cargo in FY 2020. *Id.*

31. Further, counterfeiters such as Defendants, typically operate multiple credit card merchant accounts and third-party accounts, behind layers of payment gateways so that they can continue operating in spite of MERCIS' enforcement efforts. Upon information and belief, Defendants maintain off-shore bank accounts and regularly move funds from their PayPal accounts to off-shore bank accounts outside the jurisdiction of this Court. Indeed, analysis of PayPal transaction logs from previous similar cases indicates that offshore counterfeiters regularly move funds from U.S.-based PayPal accounts to China-based bank accounts outside the jurisdiction of this Court.

32. Defendants concurrently employ and benefit from substantially similar advertising and marketing strategies. For example, Defendants facilitate sales by designing the Defendant Internet Stores so that they appear to unknowing consumers to be authorized online retailers, outlet stores, or wholesalers. The Defendant Internet Stores appear sophisticated and accept payment in,

and not limited to, U.S. dollars via credit cards, or PayPal. The Defendants Internet Stores often include content and images that make it very difficult for consumers to distinguish such stores from an authorized retailer.

33. Upon information and belief, Defendants also deceive unknowing consumers by using the MIFFY Trademarks without authorization within the content, text, and/or meta tags of their websites to attract various search engines crawling the internet looking for websites relevant to consumer searches for MIFFY Products. Additionally, upon information and belief, Defendants use other unauthorized search engine optimization (SEO) tactics and social media spamming so that the Defendant Internet Stores listings show up at or near the top of relevant search results and misdirect consumers searching for genuine MIFFY Products. Further, Defendants utilize similar illegitimate SEO tactics to propel new internet stores to the top of search results after others are shut down. As such, Plaintiff also seeks to disable Defendant Internet Stores owned by Defendants that are the means by which the Defendants could continue to sell counterfeit MIFFY Products.

34. Defendants' use of the MIFFY Trademarks and/or Work on or in connection with the advertising, marketing, distribution, offering for sale and sale of the Counterfeit Products is likely to cause and has caused confusion, mistake and deception by and among consumers and is irreparably harming Plaintiff. Defendants have manufactured, imported, distributed, offered for sale and sold Counterfeit Products using the MIFFY Trademarks and Work and continue to do so.

35. Defendants, without authorization or license from Plaintiff, knowingly and willfully used and continue to use the MIFFY Trademarks and Work in connection with the advertisement, offer for sale and sale of the Counterfeit Products, through, inter alia, the internet. The Counterfeit Products are not genuine MIFFY Products. The Plaintiff did not manufacture, inspect or package the Counterfeit Products and did not approve the Counterfeit Products for sale

or distribution. The Defendant Internet Stores offer shipping to the United States, including Illinois, and, on information and belief, each Defendant has sold Counterfeit Products into the United States, including Illinois.

36. Upon information and belief, Defendants will continue to register or acquire listings for the purpose of selling Counterfeit Goods that infringe upon the MIFFY Trademarks and Work unless preliminarily and permanently enjoined.

37. Defendants' use of the MIFFY Trademarks and Work in connection with the advertising, distribution, offering for sale, and sale of counterfeit MIFFY products, including the sale of counterfeit MIFFY products into Illinois, is likely to cause and has caused confusion, mistake, and deception by and among consumers and is irreparably harming Plaintiff.

38. Unless enjoined, Defendants will continue to cause irreparable harm to MERCIS.

**COUNT I**  
**TRADEMARK INFRINGEMENT AND COUNTERFEITING (15 U.S.C. § 1114)**

39. Plaintiff repleads and incorporates by reference each and every allegation set forth in the preceding paragraphs as if fully set forth herein.

40. This is a trademark infringement action against Defendants based on their unauthorized use in commerce of counterfeit imitations of the federally registered MIFFY Trademarks in connection with the sale, offering for sale, distribution, and/or advertising of infringing goods. The MIFFY Trademarks are distinctive. Consumers have come to expect the highest quality from MERCIS and MIFFY Products offered, sold, or marketed under Plaintiff's Trademarks.

41. Without MERCIS's authorization or consent, with knowledge of MERCIS's well-known and prior rights in its MIFFY Trademarks and with knowledge that Defendants' Counterfeit Products bear counterfeit marks, Defendants intentionally reproduced, copied, and/or colorably

imitated the MIFFY Trademarks and/or used spurious designations that are identical with, or substantially indistinguishable from, the MIFFY Trademarks on or in connection with the manufacturing, import, export, advertising, marketing, promotion, distribution, display, offering for sale and/or sale of Counterfeit Products.

42. Defendants have manufactured, imported, exported, advertised, marketed, promoted, distributed, displayed, offered for sale, and/or sold their Counterfeit Products to the purchasing public in direct competition with MERCIS, in or affecting interstate commerce, and/or have acted with reckless disregard of Plaintiff's rights in and to the MIFFY Trademarks through their participation in such activities.

43. Defendants have applied their reproductions, counterfeits, copies, and colorable imitations of the MIFFY Trademarks to packaging, point-of-purchase materials, promotions, and/or advertisements intended to be used in commerce upon, or in connection with, the manufacturing, importing, exporting, advertising, marketing, promoting, distributing, displaying, offering for sale, and/or selling of Defendants' Counterfeit Products, which is likely to cause confusion, mistake, and deception among the general purchasing public as to the origin of the Counterfeit Products, and is likely to deceive consumers, the public and the trade into believing that the Counterfeit Products sold by Defendants originate from, are associated with, or are otherwise authorized by MERCIS, thereby making substantial profits and gains to which they are not entitled in law or equity.

44. Defendants' unauthorized use of the MIFFY Trademarks on or in connection with the Counterfeit Products was done with notice and full knowledge that such use was not authorized or licensed by MERCIS, and with deliberate intent to unfairly benefit from the incalculable goodwill inherent in the MIFFY Trademarks.

45. Defendants' actions constitute willful counterfeiting of the MIFFY Trademarks in violation of 15 U.S.C. §§ 1114(1)(a)-(b), 1116(d), and 1117(b)-(c).

46. Defendants' continued, knowing, and intentional use of the MIFFY Trademarks without MERCIS's consent or authorization constitutes intentional infringement of MERCIS's federally registered MIFFY Trademarks in violation of §32 of the Lanham Act, 15 U.S.C. § 1114.

47. As a direct and proximate result of Defendants' illegal actions alleged herein, Defendants have caused substantial monetary loss and irreparable injury and damage to MERCIS, Its business, reputations and valuable rights in and to the MIFFY Trademarks and the goodwill associated therewith, in an amount as yet unknown, but to be determined at trial, for which MERCIS has no adequate remedy at law, and unless immediately enjoined, Defendants will continue to cause such substantial and irreparable injury, loss, and damage to MERCIS and its valuable MIFFY Trademarks.

48. Based on Defendants' actions as alleged herein, MERCIS is entitled to injunctive relief, damages for the irreparable harm that MERCIS has sustained, and will sustain, as a result of Defendants' unlawful and infringing actions, as alleged herein, and all gains, profits and advantages obtained by Defendants as a result thereof, enhanced discretionary damages, treble damages, and/or statutory damages of up to \$2,000,000 per counterfeit mark per type of goods sold, offered for sale, or distributed and reasonable attorneys' fees and costs.

**COUNT II**  
**FALSE DESIGNATION OF ORIGIN, PASSING OFF & UNFAIR COMPETITION**  
**(15 U.S.C. § 1125(a))**

49. Plaintiff repeats and incorporates by reference each and every allegation set forth in the preceding paragraphs as if fully set forth herein.

50. Plaintiff, as the owner of all right, title, and interest in and to the MIFFY Trademarks has standing to maintain an action for false designation of origin and unfair competition under the Federal Trademark Statute, Lanham Act § 43(a) (15 U.S.C. § 1125).

51. Plaintiff's MIFFY Trademarks are distinctive.

52. Defendants' promotion, marketing, offering for sale, and sale of infringing MIFFY Products has created and is creating a likelihood of confusion, mistake, and deception among the public as to the affiliation, connection, or association with Plaintiff or the origin, sponsorship, or approval of Defendants' infringing products by Plaintiff.

53. By using the MIFFY Trademarks in connection with the sale of unauthorized products, Defendants create a false designation of origin and a misleading representation of fact as to the origin and sponsorship of the unauthorized products.

54. Defendants' false designation of origin and misrepresentation of fact as to the origin and/or sponsorship of the unauthorized products to the general public is a willful violation of Section 43 of the Lanham Act, 15 U.S.C. § 1125.

55. Upon information and belief, Defendants' aforementioned wrongful actions have been knowing, deliberate, willful, intended to cause confusion, to cause mistake, and to deceive the purchasing public and with the intent to trade on the goodwill and reputation of MERCIS, its MIFFY Products, and MIFFY Trademarks.

56. As a direct and proximate result of Defendants' aforementioned actions, Defendants have caused irreparable injury to MERCIS by depriving MERCIS of sales of its MIFFY Products and by depriving MERCIS of the value of its MIFFY Trademarks as commercial assets in an amount as yet unknown, but to be determined at trial, for which it has no adequate remedy at law, and unless immediately restrained, Defendants will continue to cause substantial

and irreparable injury to MERCIS and the goodwill and reputation associated with the value of MIFFY Trademarks.

57. Plaintiff has no adequate remedy at law and, if Defendants' actions are not enjoined, Plaintiff will continue to suffer irreparable harm to its reputation and the goodwill of its brand.

**COUNT III  
COPYRIGHT INFRINGEMENT 17 U.S.C. § 501(a)**

58. Plaintiff repleads and incorporates by reference each and every allegation set forth in the preceding paragraphs as if fully set forth herein.

59. Plaintiff's copyright has significant value and has been produced and created at considerable expense.

60. Plaintiff, at all relevant times, has been the holder of the pertinent exclusive rights infringed by Defendants, as alleged hereunder, including but not limited to the copyrighted MIFFY Work, including derivative works. The MIFFY Work is the subject of a valid copyright registration. (**Exhibit 2**).

61. Upon information and belief, Defendants had access to the copyrighted work through Plaintiff's normal business activities. After accessing the MIFFY Work, Defendants wrongfully created copies of the copyrighted work without Plaintiff's consent and engaged in acts of widespread infringement.

62. MERCIS is informed and believes and thereon alleges that Defendants further infringed MERCIS's copyright by making or causing to be made derivative works by producing and distributing reproductions without MERCIS' permission.

63. The trademark and copyright products include a copyright notice advising the general public that the MIFFY Products are protected by the Copyright Laws.

64. Each Defendant, without the permission or consent of the Plaintiff, has and continues to sell online infringing derivative works of the MIFFY Work. Each Defendant has violated Plaintiff's exclusive rights of reproduction and distribution. Each Defendant's actions constitute an infringement of Plaintiff's exclusive rights protected under the Copyright Act (17 U.S.C. §101 et seq.).

65. Further, as a direct result of the acts of copyright infringement, Defendants have obtained direct and indirect profits they would not otherwise have realized but for their infringement of the copyrighted MIFFY Work. MERCIS is entitled to disgorgement of Defendants' profits directly and indirectly attributable to their infringement of the MIFFY Work.

66. The foregoing acts of infringement constitute a collective enterprise of shared, overlapping facts and have been willful, intentional, and in disregard of and with indifference to the rights of the Plaintiff.

67. As a result of each Defendant's infringement of Plaintiff's exclusive rights under copyright, Plaintiff is entitled to relief pursuant to 17 U.S.C. §504.

68. The conduct of each Defendant is causing and, unless enjoined and restrained by this Court, will continue to cause Plaintiff great and irreparable injury that cannot fully be compensated or measured in money. Plaintiff has no adequate remedy at law. Pursuant to 17 U.S.C. §§502 and 503, Plaintiff is entitled to injunctive relief prohibiting each Defendant from further infringing Plaintiff's copyright and ordering that each Defendant destroy all unauthorized copies. Defendants' copies, plates, and other embodiment of the copyrighted work from which copies can be reproduced should be impounded and forfeited to MERCIS as instruments of infringement, and all infringing copies created by Defendants should be impounded and forfeited to MERCIS, under 17 U.S.C §503.
